

DEKKER SUPREME

Your Dekker T-Bag® is designed to fit Harley-Davidson Tour-Paks® equipped with large chrome top rack and other motorcycles with tour boxes and luggage racks.

MOUNTING

The bag should be mounted with the rain cover zipper storage pouch facing the front of the bike. Center the bag and connect the 4 quick release buckle mounting straps around the luggage rack. Position the straps so the bag cannot slide left or right by strapping them around the top rail and to the outside of the closest luggage rack chrome rails that run front to rear. After bag is in place and straps connected, the loose ends of the straps should be tucked in or cut and burned to avoid entanglement or paint damage from flapping straps. Use good rider judgment - you are responsible for making sure your T-Bag is mounted tight with all straps tied off before riding. To protect your Tour Box hinges and stays, remove the Dekker before fully opening the lid.

REMOVABLE WALLS

This bag is designed with removable one inch thick foam interior liners providing maximum padding for transporting delicate or fragile items. If soft luggage and added space is your desire, simply remove and store the 4 hook and loop attached walls and floor foam. Remove the lid foam and move it to the bottom of the bag to insulate the contents of your bag from the luggage rack. You can add 15% more storage space by removing the foam.

OPTIONAL ICE CHEST

You may purchase our optional heavy vinyl ice liner (Part No. TB2600DS) to convert your Dekker into an ice chest. (1) We recommend leaving your foam walls inserted if you use the Dekker as an ice chest. (2) Never put ice or wet items inside the Dekker unless you use the protective vinyl ice liner. Check liner thoroughly before each use. If the foam gets wet, it will mildew and smell bad before it can dry out. The vinyl liner has a double reinforced top opening and dual buckle closure system. The long top tightly rolls down and buckles shut to seal ice and water in.

ZIP OFF FANNY PACKS

The two easy access side pockets are great for those smaller items. BOTH pockets are also designed as fanny packs. Simply zip the pockets off the main bag and you have handy his and hers fanny packs to take your valuables with you at those rest stops along the way.

RAIN COVER

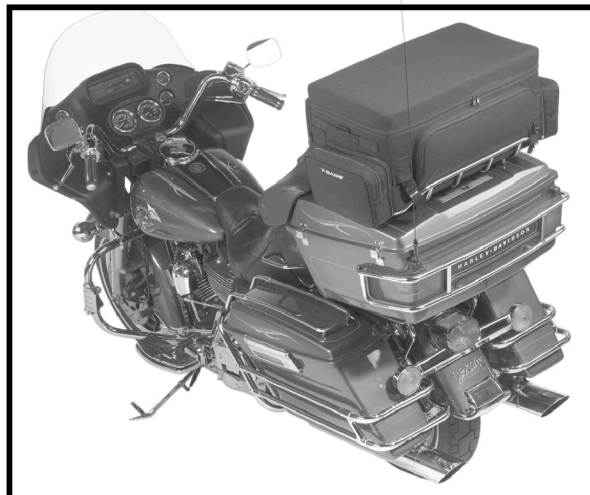

Even though T-Bag material is weatherproof and our closed cell foam absorbs virtually no moisture (ensuring against mildew and odors) the zippers and seams may allow a small amount of moisture to enter during rainy weather. Our attached form fitting Rain Cover slips over the bag and the elastic opening "pulls" into place under the bag for rain and sun protection.

TIP: If the rain cover is wet after use, it **MUST** be dried out to avoid mildew and odors during storage in the closed pocket. Let the rain cover dry overnight when you reach your lodging.

NOTICE: When purchased through an authorized T-Bags dealer, all CDL ENTERPRISES, LTD., products are warranted to be free from all manufacturing defects in materials and workmanship for the normal life of the product. This Lifetime Warranty does not cover damage resulting from abuse, neglect, improper use, common carrier damage or normal wear and tear. **Do Not ride with bag against painted or plastic surfaces because it will scuff the paint.**

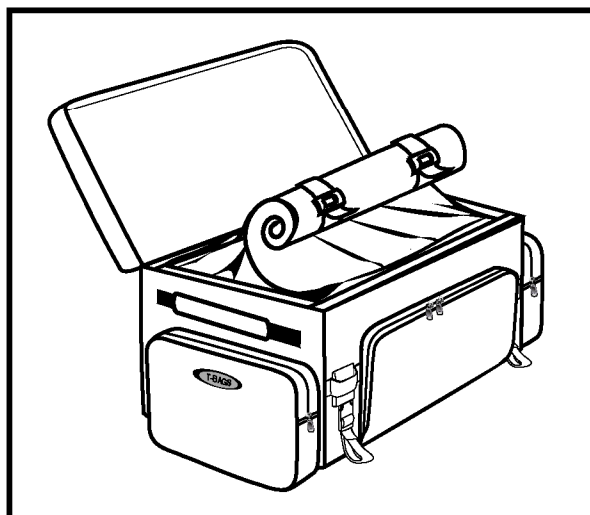

Luggage rack required.

CDL ENTERPRISES, LTD., its distributors and dealers issue no warranty and assume no liability for damage caused by use of this product other than as recommended. Load only in compliance with your owner's manual.

RIDING A DRESSER?

This heavily padded rigid T-Bag is your best choice for transporting fragile items such as cameras and laptops
