

USER GUIDE & INSTALLATION INSTRUCTIONS

SPORT, TECH & TRACK

SPORTBIKE
SEATS

SADDLEMEN SPORTBIKE SEAT FEATURES:

- Second-to-none styling improves the appearance of your motorcycle and its function.
- Designed specifically for the rider that needs a seat that can do everything — canyon carving, track days, commuting, or 1000-mile days.
- Features Saddlemen's Gel Channel technology (patent pending) which incorporates gel and a channel in the main foam to relieve pressure on the perineal area and increase blood flow to keep you comfortable and in the saddle longer.
- Advanced gel construction combined with carefully crafted contours provide excellent support and uncompromising comfort for both rider and passenger.
- Lightweight & Made in the USA.

SPORT model seat specific features:

- Black-on-black, easy to clean micro-fiber material cover provides cooling, breath-ability and an unmatched look. This unique material covers the entire top portion of the seat with a matching strip in center of the Gel Channel (GC).
- Each *SPORT* seat is slightly bucketed in the rear section to contour to your body for better comfort and control during aggressive riding.

TECH model seat specific features:

- Unique, functional appearance that can't be matched by any seat on the market. One look and it's obvious the seat is a custom accessory.
- High-quality, flexible fabric top cover breathes well and its texture allows your body to move on the *TECH* seat for aggressive maneuvering.
- Up top is a layer of memory foam that contours to the shape of the rider's body with additional memory foam strategically positioned for maximum comfort

TRACK model seat specific features:

- Hard-line looks that can't be matched by any seat on the market with contrasting colors that make it obvious it's a custom accessory.
- Each *TRACK* seat is slightly bucketed in the rear section to contour to your body for better comfort and control during aggressive riding.
- Constructed using a variety of cover materials to specifically match your motorcycle's colors and textures.

⚠ WARNING

READ THESE INSTRUCTIONS THOROUGHLY BEFORE INSTALLATION!

Because of the variety of motorcycle configurations, other accessories, and the features and intended use of this Saddlemen accessory seat, there may be different mounting options. You are responsible for the proper installation of this accessory on your motorcycle. Your attention to these installation instructions and recommendations will permit safe and proper use of this accessory. You must mount this accessory properly and securely before riding your motorcycle. If you lack the ability to safely and properly install this accessory, seek out a qualified motorcycle technician for assistance. During installation, support the motorcycle with a suitable stand or lift so it will not tip over and injure you, or damage the vehicle. Using or mounting this accessory improperly could result in a loss of control of the motorcycle which could result in damage to your motorcycle or other personal property, the property of third parties, and/or personal injury to yourself or others, up to and including death.

BE SURE TO THOROUGHLY READ AND CLOSELY FOLLOW THE MOUNTING INSTRUCTIONS THAT ARE INCLUDED WITH THIS ACCESSORY:

- The seat must be installed and securely fastened to the motorcycle in the same fashion as the original seat. Refer to your vehicle's Owner's Manual or Service Manual for seat removal and reinstallation instructions.
- If the vehicle's passenger grab strap is removed during the installation of the accessory seat make sure it is reinstalled and secure before riding.
- If you do not understand the seat installation instructions DO NOT mount the seat. Remove any items you may have already installed on your motorcycle.
- If your seat is ever damaged, do not use it until it has been inspected by your local professional motorcycle dealer. Replace the seat immediately if it has damage that will prevent it from being properly secured to your motorcycle.

DO NOT ATTEMPT TO USE THIS ACCESSORY IF:

- You do not understand these installation and use instructions,
- You do not understand any part of the accessory mounting system,
- You have any doubts as to the security of the mounting system.

If you have any concerns or questions, seek help at your qualified motorcycle dealer or call the Saddlemen support line at (310) 638-1222.

Remember: Motorcycling can be a dangerous activity. Installation of any accessory can increase your risk if it is not installed properly. You are responsible to install this accessory so it will not contact any portion of the drive train, suspension or steering, and so that it will in no way interfere with the operation of your motorcycle.

SPORTBIKE SEAT INSTALLATION INSTRUCTIONS:

Your Saddlemen Sportbike Seat has been developed so it will mount to your motorcycle in the same manner as the vehicle's original seat. Simply refer to your motorcycle's Owner's Manual or Service Manual for seat removal and reinstallation instructions. Remove the original seat and install your new Saddlemen accessory seat in its place.

NOTE: Compare the seat base of your new seat to your original seat and transfer any rubber grommets or bumpers that may be absent. Use soapy water as a lubricant when you remove and install grommets or bumpers. Make sure all seat mounting hardware is tight and secure before riding your motorcycle. If the seat is secured via a keyed lock ①, press down on the seat to make sure its mounting hardware engages the lock mechanism on the chassis, then lift up gently on the seat to make sure it is securely attached to the motorcycle.

IMPORTANT:

If you removed a passenger grab strap from the seat or the chassis when installing the new seat, reinstall it when placing the seat on your motorcycle.

Failure to install the accessory seat or a passenger grab strap properly may allow the seats or related materials to contact the vehicle's moving parts or exhaust system. It is vital that you verify that the seats and any related parts will not touch, or interfere with other components throughout the vehicle's entire range of motion.

After 50 miles (80 kilometers) of riding, verify that the seat's mounting is still tight and secure. It is your responsibility to make sure that any accessory installation does not create an unsafe or illegal situation.

CARE OF YOUR SADDLEMEN ACCESSORY SEAT:

Your Saddlemen seat requires almost no maintenance, other than periodic cleaning. Use Saddlemen Seat & Saddlebag Ultra Wash (#3101) for the best results while cleaning, or use mild soap and water.

SADDLEMEN LIMITED ONE-YEAR WARRANTY

Saddlemen warrants its products for defects in materials, design or workmanship for a period of one year after retail purchase. Items that are defective will be repaired or replaced by Saddlemen at its sole discretion. Damage caused by improper use or improper installation is not a defect; therefore repair or replacement of a damaged accessory will not be covered under this warranty. This warranty contains other provisions and conditions, so please visit www.saddlemen.com for additional information. Thank you for purchasing your new Saddlemen accessory. You can count on Saddlemen's quality, innovation, service and style. We want you to be completely satisfied. If you have any comments, or are not satisfied with the performance of your Saddlemen accessory, please contact the Saddlemen support line at (310) 638-1222.
