QUICK START GUIDE

Follow the steps in this quick start guide to setup and install your NUVIZ devices.

1. NUVIZ SETUP
   - Open the battery cover of NUVIZ with the tool provided
   - Insert the battery and a microSD card used for video capture (sold separately)
   - Press and hold power button for 0-3 seconds to turn on NUVIZ
   - Display will light up upon successful power up

2. CONTROLLER SETUP
   - Open the battery cover of the Controller with the tool provided
   - Insert the battery (CR2032) with the ‘+’ sign facing up as indicated on the Controller
   - Press any key to power on and activate the Controller
   - Pairing starts automatically and status is indicated on the display

3. NUVIZ APP INSTALLATION AND SETUP
   - Download and install the Android/iOS NUVIZ App on your phone or tablet
   - Enter a Username/Password to create your NUVIZ account and then sign in
   - Follow the on-screen prompts on your phone or tablet to pair your NUVIZ devices

4. HELMET INSTALLATION
   - Wear your helmet to ensure proper positioning of NUVIZ
   - Use a mirror to place NUVIZ on your helmet
   - Adjust the multi-directional viewing angle
   - Align the center of the NUVIZ display with your right eye for optimal position
   - Find the best position and peel off 1/3 of the backing from the mount base sticker
   - Gently press NUVIZ into position and then reverify placement
   - Hold NUVIZ in place and press a minimum of 3 minutes

5. NUVIZ DETACHMENT
   - Activate the release button below NUVIZ to release
   - Slide NUVIZ upwards from the mount to remove it from your helmet
   - Continue sliding NUVIZ upwards until fully detached from the mount
   - Slide in the cover to protect the mount when NUVIZ is not in use

6. HEADSET INSTALLATION
   - Install the headset speakers and microphone inside your helmet
   - With NUVIZ detached plug the cable into the headset jack on the mount
   - Test and adjust the position of your headset as necessary

7. CONTROLLER INSTALLATION
   - Select one of multiple locations that the controller can be installed
   - Position your Controller allowing for easy access with your left hand
   - Verify the orientation of the Controller prior to attachment to your motorcycle
   - Mount M1 can be used to attach NUVIZ Controller to a handlebar

8. CAMERA ADJUSTMENT
   - Press the camera key on the Controller to activate the camera
   - The camera viewpoint is visible on the NUVIZ display
   - Press the plastic lens collar to adjust the view as desired
   - Press the top function key to exit the camera viewpoint

NOTICE: Apply NUVIZ to a clean helmet surface at room temperature. Attach the adhesive mount at least 24 hours before use

NOTICE: Detach NUVIZ and let the adhesive mount cure at least 24 hours before use
