

**BMW R 1200 GS / GSA 2013.5+
SARGENT WORLD SPORT PERFORMANCE SEAT
INSTALLATION GUIDE**

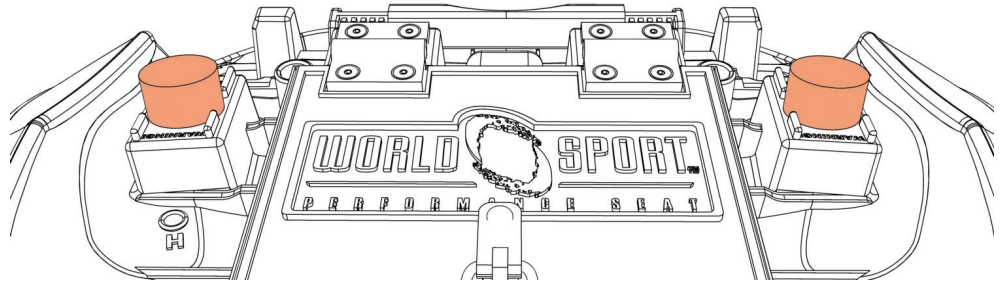

Installation

The front seat ships from Sargent configured for use in the High position. Special front seat rubber bumpers are included on your Sargent World Sport Seat that do not appear on your stock seat. These bumpers provide extra support and stability for the front seat.

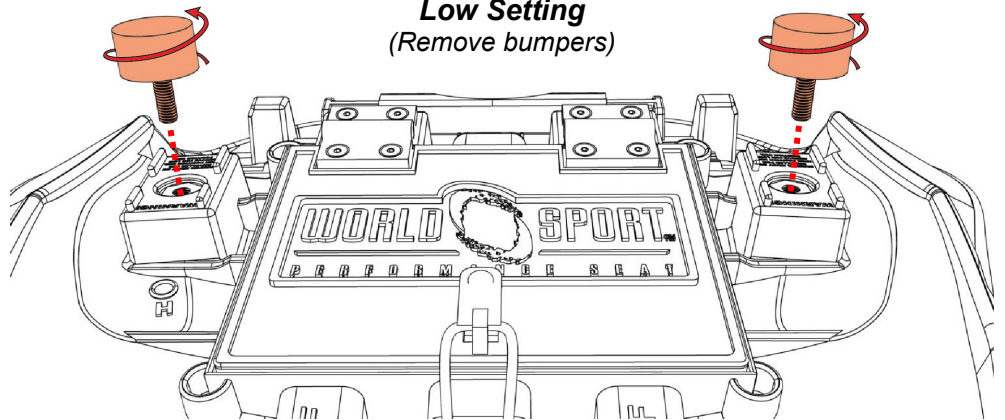

Note

The seat ships from Sargent with these bumpers installed for use in the HIGH position. To mount the seat in the LOW position, the rubber bumpers must be removed as shown below. Store for future use.

High Setting

**Low Setting
(Remove bumpers)**

Warning

Using the front seat in a “tilted” configuration (i.e. front of seat in the HIGH position and back of seat in the LOW position) is not recommended and may result in improper or misaligned latching and possible damage to the seat or motorcycle latch system. Such damage is not covered by our seat warranty.

Note

*Anytime the back of the front seat is in the LOW position, the support bumpers shown above **MUST** be removed.*
